# About StoneTribe

[StoneTribe](#) is a dynamic musical duo who have played music together since high school. The 2 man crew consists of **DandelION** of San Antonio, TX and **Natoven** (pronounced like Beethoven) of Wilmington, NC. They established the group virtually in 2019, other than occasional visits for jam sessions, special performances and studio time, their work is done remotely. They've lived interesting lives and write powerful songs with refreshingly deep content. The mood of their music is likened to a beach vacation mix tape, blending elements of Reggae, R&B, Soul, Hip Hop, Pop and Surf Rock. Their unique approach, inspiring lyrics and wide ranging styles make them a must have in your music collection!

StoneTribe's introduction to the world was their 5 song EP "Tank Man". One of the singles, "Blood Brother" was licensed and a remix collaboration with world famous DJ **Luca Debonaire** reached #6 on commercial pop charts in the UK, staying a top 40 for several weeks!

Their new single "**Winds Change**" is the first released from their new album "**Sync Or Swim**", which will see daylight later this year. The song features a hypnotic bassline and funky guitar groove with a myriad of vocalists, layering smooth verses and anthem-like choruses. The message is bold yet wonderfully disguised as a walk in paradise.

It was written as an anthem promoting positive change in the world. **Storm Guevara** from Kaya Kotura, a reggae rock band out of San Antonio dropped a beautiful verse on the track and it was expertly mixed and co-produced by **Tass** and mastered by industry legend **Danny Kalb**. "*Winds Change*" releases officially **April 14th 2023**.
